REPORT OF THE SUPERINTENDENT.

To the School Board of Jaffrey:

My third annual report—the fourth annual report of the superintendent of schools in Jaffrey—is herewith presented.

The present membership by schools and grades is as follows:

SCHOOLS	GRADES								Total
	I	II	III	IV	V	VI	VII	VIII	
Grade I	52								52
“ IV		35							35
“ III			37						37
“ IV				35					35
Sub-Grammar					33	19			52
Grammar							12	12	24
Number 3	8	3	0	4	1	1	0	1	18
“ 4	0	1	1	2	1	3	0	0	8
“ 7	5	4	5	1	4	0	0	0	19
“ 9	2	2	6	0	1	1	0	0	12
Totals	67	45	49	42	40	24	12	13	292

This table shows a marked increase in the number of pupils in the grammar schools, which means that we have carried more pupils up into these grades before they had reached the age where they could get certificates and leave school to go to work. This has crowded the sub-grammar room and next year it will be necessary to relieve this room by keeping part of the fifth grade in the wooden building, making the room which has hitherto been a fourth grade room a two-grade room. Should there be any marked decrease in the membership of the present second, third and fourth grades it would be possible to divide the third grade next year between the present third and fourth grade rooms and leave the sixth grade alone in the sub-grammar room. This re-arrangement of classes will take care of the growth of the schools temporarily and for the present at least should not be a serious detriment to the efficiency of the school system.

The first grade room has been crowded by pupils who have come to town and entered school since the opening of the year. Such increases cannot be foreseen and must be provided for when they come.

The physical conditions of the schools have been materially improved during the last two years by the installation of an excellent heating and ventilating plant in the primary school and a ventilating stove at Jaffrey Center, and by the painting of the inside of the sub-grammar room at Number Two and of the Number Four, Seven and Nine school rooms. The grammar school should be painted this year and the ceilings of the four rooms in the wooden building. The inside blinds in the last mentioned rooms ought to be taken out and curtains provided. These blinds catch the dust, which is blown into the rooms when the windows are opened, and when closed to keep out the direct rays of the sun shut out all the light. New curtains are needed in the sub-grammar room.

The blackboard space in all of the schools outside of East Jaffrey is entirely inadequate and I would urge that each year some slate boards be purchased until all these schools be provided with a reasonable amount of blackboard surface. Slate boards cost a little more to buy, practically no more to install and will last for an indefinite length of time while the ordinary board is short lived comparatively, needs frequent repainting and does not give nearly as satisfactory writing surface. The boards in the third and fourth grade rooms are of wood and need re-painting but as more boards are needed in the other schools and these can be made to give fair service for a time, I would suggest that they be not replaced by slate boards until after the other schools have been better equipped.

The school grounds at Jaffrey Center are badly in need of filling and grading as the wash has made a deep gutter through the yard and carried the earth away from the foundations. The yard has also been cut away at the side of the road so that it is difficult to get into the yard with a team.

The Memorial Day exercises were held as usual in Union Hall and attended by pupils and friends from all parts of the town. As the hall is not large enough to seat many after the children are in it, it seems to me that it would be better for the schools outside of East Jaffrey to hold similar exercises at Jaffrey Center to which their friends and parents could be invited and to which the representatives of the patriotic organizations

could go and address the children. It could be held at a time which would not interfere with the presence of the members of the Grand Army of the Republic at the Number Two exercises.

An exhibition of pupils' drawings was held in the annex of Union Hall in connection with the annual graduating exercises of the grammar school. Work from each pupil was on exhibition and very clearly demonstrated the value of the instruction in drawing which the schools have received for the past two years. The covers of the programs of the graduating exercises were designed and decorated by pupils of the grammar school.

In closing this report I wish to express to the School Board and teachers my appreciation of their helpful and friendly co-operation, and to the citizens of Jaffrey my regret at terminating the very pleasant relations of the past two and a half years. Respectfully submitted.

JAMES N. PRINGLE,

Superintendent of Schools.

East Jaffrey, N. H., Feb. 1, 1912.

REPORT OF THE SUPERVISOR OF MUSIC AND DRAWING.

MR. J. N. PRINGLE, Superintendent of Schools.

In presenting my second annual report, I wish to thank the superintendent and School Board for their courteous consideration and unfailing support in the departments of music and drawing.

MUSIC.

Music is enjoyed both by young and old. It touches every grade of life, the rich, the poor, the merry and the unhappy. Training in music has come to be recognized as a necessary part of true education. In view of this fact, the following schedule is used in the schools:

The first of every month an outline of the work is given the teachers of Grade I-VIII.

The first and second grades are doing good work. At the end of the first year the pupils are familiar with the scale in several positions on the staff, and have learned

many rote songs. The second grade have the Introductory Sight-Singing Melodies Book, rote songs, and songs from the board. The keys, notes, and rests are studied. The third grade have begun two-part music in the New Educational Music Course. First Rdr., individual sight-reading and music writing is reviewed and continued.

Two-part music from the Second Rdr. is progressing rapidly in the fourth grade. All musical terms are studied carefully. Individual and interval drill work is taken up daily.

The Third Rdr. is used in the fifth and sixth grades. These grades deserve a great deal of credit for their work in three-part music. A review of musical characters, studied in the previous grades, is made.

The seventh and eighth grades study the Fourth Rdr. Their work consists of songs, exercises, scales, major, minor, and chromatic, in both clefs. Signatures and tones have been reviewed most thoroughly. I have organized a boys' quartet in these grades. The lives of a few of our famous music composers are studied.

Tone work is to develop softness, sweetness, and purity of tone. As a result of ear-training and individual singing, monotones are fast disappearing.

Each pupil is ranked on every lesson according to the interest and effort shown.

The schools held a Memorial Service in Union hall, May 30, 1911. The soldiers and friends spoke very kindly of the songs and recitation given by the pupils.

The chorus work in the High School is very good. A double quartet of young ladies has been organized. The books used for chorus work are "The Corona," and "Abridged Academy Song-Book."

DRAWING.

The work during the year has progressed, sufficient change being made to insure increased interest.

The fall work in all grades was begun by the use of the flowers and fruits, both for pencil and color work.

Careful attention has been given to measuring, object-drawing, illustrative, working drawings, shading, and water-color paintings, which are the essentials of a good course in drawing. In addition, charcoal, stencil work and picture study has been taken up.

There was special work done at Thanksgiving and Christmas. The children designed and made several useful articles at Christmas, such as clipping-cases, match-scratchers, pin-balls, button bags, belts, waste baskets and cards.

Drawing has been begun in the High School this year. At present there are two classes, the mechanical and freehand.

On Thursday of graduation week a drawing exhibit was given, showing work done by the Jaffrey schools during the year. At least one piece of every child's work was shown. Plans are being made for another exhibit in the spring term. All parents and friends are invited to come and see the work.

In reviewing the work, I feel sure the schools are advancing year by year.

I wish to thank the teachers and pupils for their co-operation.

Respectfully submitted,

AMY B. KNEELAND,

Supervisor of Music and Drawing.
